

Cyprus

If configuration flexibility is what you are looking for in your next Point-of-Sale system, then look no further than the **Cyprus**! This highly tailorable system gives you the power to build a solution that has all of the peripherals to empower you and your team to do it all, and even to do it with style. The breadth of options complement the robust base configuration so that you can not only do what you need, you can do what you never thought was possible with Point-of-Sale.

- It's all possible with the Cyprus.
- One of the smallest footprints possible in a distributed POS design.
- Helps sync your Concessions, Bar, and Restaurant.

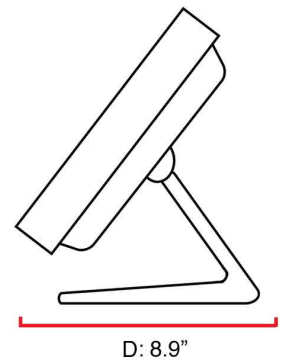

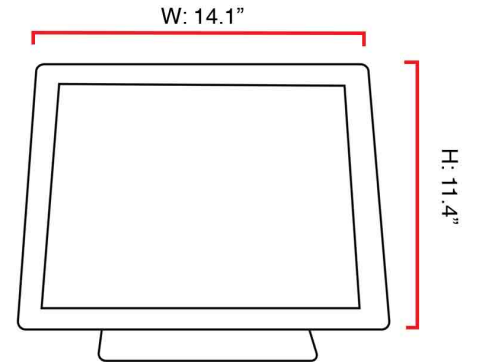

Highly Flexible, Maximum Impact
